

BETRAND NJOH ASHU

IT Systems Administrator | Cloud Infrastructure | Technical Support

ashbertino00@gmail.com | (+237) 677 408 458 | [linkedin.com/in/bashu24](https://www.linkedin.com/in/bashu24) | github.com/engrashu
Douala, Cameroon | Open to Remote & Relocation | Available Immediately

PROFESSIONAL SUMMARY

IT Systems Administrator with hands-on experience deploying and managing Windows Server, Active Directory, Linux, Azure, and cloud application infrastructure in enterprise and project-based environments. Currently completing a Bachelor of Applied Science in IT System Administration at Ensign College (3.98 GPA, 79 credits earned), with an Associate degree and five professional certificates completed. Led a four-person team delivering a production mobile application backed by Azure SQL and REST APIs. Experienced in troubleshooting, automation, technical documentation, and supporting users across hybrid environments. Seeking systems administration, IT support, or cloud infrastructure roles where I can contribute immediately.

TECHNICAL SKILLS

- **Systems Administration:** Windows Server 2019/2022, Active Directory (AD DS), DNS, DHCP, Group Policy, PowerShell, user/group management, file services
- **Linux:** Ubuntu, CentOS, SSH key-based access, iptables/UFW, file permissions, cron, LAMP stack, log analysis
- **Cloud Platforms:** Microsoft Azure (App Service, Azure SQL, Entra ID), AWS (EC2, S3, IAM — foundational), Proxmox VE virtualization
- **Networking:** IP subnetting, VLANs, firewall configuration, VPN, DNS resolution, DHCP scoping, Cisco Packet Tracer
- **Automation & DevOps:** Python, Bash scripting, Git, GitHub, GitHub Actions, Jenkins, Maven, VS Code, Postman
- **Databases:** SQL Server, Azure SQL, database design (DDL/DML), parameterized queries, data modeling
- **Security:** Cybersecurity foundations, security scripting, CIS benchmarks, audit logging, Windows Defender configuration
- **Technical Support:** PC hardware, system troubleshooting, remote administration (AnyDesk), user support, technical documentation

PROFESSIONAL EXPERIENCE

Team Leader & Backend Developer | **Gym Optimized LLC** | Remote (Ensign College Project) Jan 2026 – Aug 2026

- Led a four-person distributed team developing a production fitness application for iOS and Android through Agile/Scrum sprints
- Architected and deployed a **14-table Azure SQL database** and **10 REST API route files** covering 24 endpoints with 146 parameterized queries
- Managed cloud application infrastructure using **Azure App Service** and Azure SQL with Git/GitHub-based CI workflows
- Diagnosed and resolved a critical data-persistence failure during beta testing, restoring workout history for all active testers
- Coordinated four testing cycles, resolved sponsor-reported defects, and maintained technical documentation throughout development

Team Leader | **Beyond the Shackle Initiative** | Cameroon 2024

- Mentored students pursuing higher education; led educational workshops that **increased participation by 30%**
- Streamlined reporting and documentation processes, reducing administrative errors by 20%

INFRASTRUCTURE & TECHNICAL PROJECTS

Proxmox-Based Windows Server Virtualization Lab Jun 2025 – Oct 2025

- Deployed Windows Server 2022 on **Proxmox VE** as a Type-1 hypervisor for domain controller and file server virtualization
- Configured **Active Directory Domain Services**, DNS, DHCP, Group Policy, and OU structures for enterprise network simulation
- Implemented snapshot-based backup strategy and optimized resource allocation, improving system uptime by 30%
- Collaborated on security policy and firewall configurations to meet organizational compliance standards

Cross-Platform Linux Server Administration 2025 – 2026

- Deployed Ubuntu and CentOS servers on Oracle VirtualBox and Microsoft Azure for development and testing
- Configured SSH key-based remote access, file-permission hardening, iptables/UFW firewall rules, and LAMP stack
- Automated maintenance tasks using Bash scripts with cron scheduling for log rotation and system monitoring

AWS DevOps Pipeline Environment Jan 2024 – Aug 2025

- Configured Jenkins CI/CD pipelines on AWS EC2, integrated with Maven for build automation and Tomcat for deployment
- Deployed SonarQube for code quality analysis and New Relic for application performance monitoring with alerting rules
- Managed source code repositories on GitHub, reducing deployment time from hours to minutes through automation

Cisco Networking Simulation Lab 2025

- Built enterprise network topologies in Cisco Packet Tracer including VLAN segmentation, inter-VLAN routing, and ACLs
- Configured static and dynamic routing (OSPF, EIGRP) for multi-site network connectivity simulation

C2 Infrastructure Demo (Educational Cybersecurity) 2026

- Built a command-and-control demonstration in Python on Kali Linux using TCP sockets and multi-threaded architecture
- Published code and documentation on GitHub to demonstrate understanding of offensive techniques for defensive purposes

MedLynk Africa — Healthcare Platform (Founder)

2026 – Present

- Designing a bilingual healthcare technology platform connecting patients to pharmacies, clinics, and hospitals in Cameroon
- Working across API design, backend infrastructure, database architecture, cloud deployment planning, and product development

EDUCATION

Bachelor of Applied Science — IT System Administration | Ensign College | **GPA: 3.98/4.00**

Expected April 2027

68 credits completed. 7 embedded certificates (see below). BYU-Pathway Worldwide program.

Associate in Applied Science — Information Technology | Ensign College | **GPA: 3.98**

Completed Aug 2026

PathwayConnect Certificate | BYU-Pathway Worldwide | **GPA: 4.00**

Awarded Jun 2025

PROFESSIONAL CERTIFICATES

- **Technical Support Engineer** — Ensign College — Awarded October 2025
- **IT Professional** — Ensign College — Awarded April 2026
- **Certificate of Professionalism** — Ensign College — Completed August 2026
- **PathwayConnect** — BYU-Pathway Worldwide — Awarded June 2025
- **Cisco Network Technician Career Path** — Cisco Networking Academy — Awarded October 2025
- **DevOps Professional** — PagerDuty & LinkedIn — Awarded April 2025

In Progress: CompTIA Security+ (SY0-701) — Exam target December 2026

SELECTED TRAINING & COURSEWORK

Windows Server 2022: Active Directory (LinkedIn Learning) · PowerShell 7 Essential Training · CompTIA Linux+ Cert Prep · AWS Cloud Essentials · Python Scripting & Automation · Subnetting & IP Addressing · Introduction to Prompt Engineering · Technical Writing · Business Writing Principles · DevOps Foundations: CI/CD, Infrastructure as Code. Jira board, Agile project management.
