ashbertino00@gmail.com | (+237) 677 408 458 | linkedin.com/in/bashu24 | github.com/engrashu
Douala, Cameroon | Open to Remote & Relocation | Available Immediately

PROFESSIONAL SUMMARY

Bilingual (English/French) IT professional with hands-on experience in technical troubleshooting, user support, and team communication across remote, distributed environments. Led a four-person team delivering a production application through Agile sprints, managing stakeholder communication, resolving user-reported issues across four testing cycles, and maintaining documentation throughout. Fast and accurate typist comfortable handling high-volume support via chat, email, and phone. Known for servant leadership, active listening, and a commitment to following every task through to full resolution. Technical background in Windows Server, Active Directory, Azure, Linux, and networking means faster diagnosis, fewer escalations, and a better experience for every customer. Currently completing a Bachelor's in IT System Administration at Ensign College (3.98 GPA) with five professional certificates earned. Available immediately for remote work across time zones.

Linux:	Ubuntu, CentOS SSH, iptables/UFW LAMP stack Bash scripting and automation
Networking:	IP subnetting VLANs Firewall configuration VPN DNS resolution DHCP scoping
Tools & Platforms:	Git/GitHub PowerShell Python Postman VS Code Jira Agile/Scrum methodology
Databases:	SQL Server Azure SQL Database design (DDL/DML) Parameterized queries

PROFESSIONAL EXPERIENCE

Team Leader & Backend Developer | Gym Optimized LLC

Remote (Ensign College Project) | Jan 2026 – Aug 2026

- Led a four-person distributed team delivering a production fitness application for iOS and Android through Agile/Scrum sprints
- Managed stakeholder communication, coordinated four testing cycles, and resolved sponsor-reported defects promptly
- Diagnosed and resolved a critical data-persistence failure during beta testing, restoring service for all active users
- Architected a 14-table Azure SQL database and 10 REST API route files covering 24 endpoints with 146 parameterized queries
- Maintained clear technical documentation and ensured every reported issue was tracked to full resolution

Team Leader | Beyond the Shackle Initiative

Cameroon | 2024

- Mentored students pursuing higher education; led educational workshops that increased participation by 30%
- Streamlined reporting and documentation processes, reducing administrative errors by 20%

RELEVANT TECHNICAL PROJECTS

Proxmox-Based Windows Server Virtualization Lab

Jun 2025 – Oct 2025

- Deployed Windows Server 2022 on Proxmox VE; configured Active Directory, DNS, DHCP, Group Policy, and OU structures
- Implemented snapshot-based backup strategy, improving system uptime by 30%

Cross-Platform Linux Server Administration

2025 – 2026

- Deployed Ubuntu and CentOS servers; configured SSH, firewall rules, LAMP stack, and automated maintenance with Bash/cron

AWS DevOps Pipeline Environment

Jan 2024 – Aug 2025

- Configured Jenkins CI/CD pipelines on AWS EC2 with Maven and Tomcat, reducing deployment time from hours to minutes

MedLynk Africa — Healthcare Platform (Founder)

2026 – Present

- Designing a bilingual healthcare technology platform connecting patients to pharmacies, clinics, and hospitals in Cameroon
